SKILLS

- **Languages:** C, C++, Java, JavaScript
- **Frameworks:** HTML, CSS, React, Node
- **Databases:** MongoDB
- **Tools/Platforms:** VsCode, Canva, Figma
- **Soft Skills:** Problem-Solver, Team Player, Adaptability

PROJECTS

Student Desk Recommender: January 2026 - February 2026

- Built a desk setup planner that recommends aesthetic and space-saving desk items based on user preferences like budget, desk size, and usage.
- Developed the project using the MERN stack (MongoDB, Express, React, Node.js) and implemented backend filtering logic to fetch relevant product suggestions from the database.
- Integrated frontend and backend to create a responsive full-stack application with real product data and smooth user interaction.

Real time Weather App: June 2025 - July 2025

- Designed a web application to provide accurate, real-time weather updates based on the user's current geographical location.
- Integrated HTML, CSS, JavaScript, React JS, and the OpenWeather API to fetch and display live weather data dynamically.
- Delivered a responsive application that fetched real-time weather data using APIs and demonstrated consistent performance across different screen sizes.

Habit Tracker App: June 2025 - July 2025

- Designed a habit tracking application to help users build consistency by creating and maintaining daily habits with progress visualization.
- Developed the application using HTML, CSS, JavaScript, and React JS, implementing state management to track habits and streaks in real time.
- Delivered a responsive habit-tracking application that handled multiple habit entries in testing and ensured smooth usability across devices.

TRAINING

Full Stack Development: June 2025 - July 2025

- Developed a strong understanding of full stack web development concepts, including frontend-backend interaction, RESTful APIs, and application flow.
- Learned MERN stack technologies such as MongoDB, Express.js, React.js, and Node.js for building responsive and scalable web applications.
- Applied learned concepts by working on a real-time weather application, understanding location-based services and frontend-backend interaction.

CERTIFICATES

- Communication in the 21st Century Workplace - [Coursera](#) February 2026
- Java Programming (Self Paced) - [GeeksForGeeks](#) November 2025
- Master Generative AI and Generative AI Tools - [Udemy](#) August 2025
- Responsive Web Design Certification - [Free Code Camp](#) October 2023

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.03 August 2023 - Present
- **Lokdeep Public School** Faridabad, Haryana
Intermediate; Percentage: 79% April 2022 - March 2023
- **Lokdeep Public School** Faridabad, Haryana
Matriculation; Percentage: 85% April 2020 - March 2021
